Mark:

Steve indicated that you guys were in the process of determining disposal options for the waste that cannot be disposed of at the Texas Molecular Disposal Well. I would like to get some feedback from you on where you guys are at in determining disposal options, what those options are, the schedule that you are on to complete the analysis, and when you would anticipate implementing the selected approach.

If you need to contact me, I can be reached at 214.789.1627.

Thanks

Gary Moore
